How do the rich get rich? An updated edition of the "remarkable" New York Times bestseller, based on two decades of research (The Washington Post). Most of the truly wealthy in the United States don't live in Beverly Hills or on Park Avenue. They live next door. America's wealthy seldom get that way through an inheritance or an advanced degree. They bargain-shop for used cars, raise children who don't realize how rich their families are, and reject a lifestyle of flashy exhibitionism and competitive spending. In fact, the glamorous people many of us think of as "rich" are actually a tiny minority of America's truly wealthy citizens—and behave quite differently than the majority. At the time of its first publication, *The Millionaire Next Door* was a groundbreaking examination of America's rich—exposing for the first time the seven common qualities that appear over and over among this exclusive demographic. This edition includes a new foreword by Dr. Thomas J. Stanley—updating the original content in the context of the financial crash and the twenty-first century. "Their surprising results reveal fundamental qualities of this group that are diametrically opposed to today's earn-and-consume culture." —Library Journal

Cuba's Car Culture drives through Cuba's love of American cars of the '40s and '50s, and the ingenuity that keeps them running despite the U.S. embargo. 2017 Silver Medal Winner of the International Automotive Media Competition! The story of how Cuba came to be trapped in automotive time is a fascinating one. For decades, the island country had enjoyed healthy tourism trade and American outpost status, and by the 1950s it had the highest per capita automotive purchasing of any Latin American country. But when Cuba fell to communist rebels in 1959, so ended the inflow of new cars. Since then, trade embargo forced Cuba's car enthusiasts to develop a unique and insular culture, one marked by great creativity, such as: -Keeping a car alive with no opportunity to

acquire replacement parts -Customizing a car with no access to aftermarket parts
-Drag racing with no drag strip In many ways, Cuba is an automotive time warp, where the newest car is a 1959 Chevy or perhaps one of the Soviet Ladas. Cuba's Car Culture offers an inside look at a unique car culture, populated with cars that have been cut off from the world so long that they've morphed into something else in the spirit of automotive survival. Authors Tom Cotter and Bill Warner (founder of the Amelia Island Concours) take readers on a whirlwind tour of all things automotive, beginning with Cuba's pre-Castro car and racing history, up to today's lost collector cars, street racing, and the challenges of keeping decades-old cars on the road. Cuba's Car Culture is illustrated throughout with rare historical photos as well as contemporary photos of Cuba's current car scene. For anyone who enjoys classic cars, whether they're old Chevy Bel-Airs, Studebakers, or Ford Fairlanes, a cruise around Cuba will make you feel like a kid in a candy store.
