Sir James Stirling was one of the greatest British architects of the twentieth century. This book provides a comprehensive critical survey of Stirling's work, charting the development of his ideas over four turbulent architectural decades. Using archival material, analytical examination of key buildings, and extensive interviews with Stirling's partners, the book sheds new light on Stirling's philosophy, working method and design strategy, and the atelier structure of his office.

This fascinating review of what social psychologists know about love, sex and intimacy puts to rest some tired clichés on the subject. Begins by asking "What is this thing called love?" and finds that people distinguish between two kinds of love, passionate love and companionate love. This study answers a variety of questions about love such as: Where is the best place to find someone to love? Do men and women want different things from love? How can couples make love last? Originally published by Addison-Wesley in 1978, it won the American Psychological Foundation National Media Award in 1979.

Make This Marriage Last a Lifetime Leading blended family authority Ron Deal and marriage and family expert David Olson show you how to build on your relationship strengths and improve your weaknesses. Blended family couples can beat the odds--this book will tell you how."--Dr. Dennis Rainey, president of FamilyLife, author of Stepping Up

Written specifically for engineering students, this handbook is packed with practical guidance on conducting projects and writing clear and coherent reports. It takes students step-by-step through the key stages in a project, from identifying the problem and analysing its causes to defining solution requirements and developing and implementing solutions. It also provides guidance on other important aspects of project work, such as communicating with industrial partners and presenting their report.

All couples go through challenging times: some survive and thrive, others don't. How can we understand and use this distinction in the practical application of therapy?

Another title in the best-selling '25' series, using the same popular format. Over the last fifteen or so years, the 2/1 Game Forcing bidding method has gained substantial popularity, but for various reasons it is not taught in beginner classes. This book is therefore designed for players who are familiar with Standard bidding and are interested in switching to the 2/1 method. It covers basic concepts as well as the differences between 2/1 and Standard auctions, and includes a discussion of more advanced ideas and conventions that fit particularly well with 2/1 methods. Existing books on this topic (notably by Max Hardy and Mike Lawrence) are too advanced and/or too technical for this level of player.

The editors of "Making Sense of Death: Spiritual, Pastoral, and Personal Aspects of Death, Dying and Bereavement" provide stimulating discussions as they ponder the meaning of life and death. This anthology explores the process of meaning-making in the face of death and the roles of religion and spirituality at times of loss; the profound and devastating experience of loss in the death of a spouse or a child; a psychological model of spirituality; the dimensions of spirituality; humor in client-caregiver relationships; the worldview of modernity in contrast to postmodern assumptions; the Buddhist perspective of death, dying, and pastoral care; meaning-making in the virtual reality of cyberspace; individualism and death; and the historical context of Native Americans, the concept of disenfranchised grief, and its detailed application to the Native American experience. It also explores: a qualitative survey on the impact of the shooting deaths of students in Colorado; a team approach with physicians, nursing, social services, and pastoral care; a study of health care professionals, comparing clergy with other health professionals; marginality in spiritual and pastoral care for the dying; a qualitative research study of registered nurses in the northeast United States; and loss and growth in the seasons of life.

Building on the innovative work of Unformulated Experience, Donnel B. Stern continues his exploration of the creation of meaning in clinical psychoanalysis with Partners in Thought. The chapters in this fascinating book are undergirded by the concept that the meanings which arise from unformulated experience are catalyzed by the states of relatedness in which the meanings emerge. In hermeneutic terms, what takes place in the consulting room is a particular kind of conversation, one in which patient and analyst serve as one another's partner in thought, an emotionally responsive witness to the other's experience. Enactment, which Stern theorizes as the interpersonalization of dissociation, interrupts this crucial kind of exchange, and the eventual breach of enactments frees analyst and patient to resume it. Later chapters compare his views to the ideas of others, considering mentalization theory and the work of the Boston Change Process Study Group. Approaching the link between dissociation and enactment via hermeneutics, metaphor, and narrative, among other perspectives, Stern weaves an experience-near theory of psychoanalytic relatedness that illuminates dilemmas clinicians find themselves in every day. Full of clinical illustrations showing how Stern works with dissociation and enactment, Partners in Thought is destined to take its place beside Unformulated Experience as a major contribution to the psychoanalytic literature.

"Behavioral Addictions is a timely landmark achievement and a must read for anyone interested in addictive and compulsive behavior and its treatment. Rosenberg and Feder have brought us leading addiction experts, who clearly present the growing evidence for including behavioral addictions in the DSM-5 and how best to treat them. While gambling is the first to be included in the DSM-5 chapter on substance related disorders, other behavioral addictions are likely to follow as evidence grows. This is the most important new textbook in addiction psychiatry in recent years." - Richard Frances MD, Founding President, American Academy of Addiction Psychiatry DSM-V broke new ground in May of 2013, designating a new disorder called "behavioral addiction." Clinicians immediately wanted to know: how is a behavioral addiction different from an impulse control disorder? What are the criteria for determining that some behaviors are addictions rather than impulses? What, if anything, does this mean in terms of effective treatment? Behavioral Addictions is the first and most authoritative text ever written on the subject of behavioral addictions. This comprehensive work explains the criteria used to determine addiction, the evidence for identifying assorted behaviors as addictions, and the evidence-based treatment for each. With contributions from preeminent experts covering an exhaustive list of behavioral addictions, this book is unique in its coverage of behavioral addictions, their criteria, and treatment. It is a valuable and timely resource for any clinician treating addictions. A guide to understanding the new DSM-V designation of behavioral addiction Defines the criteria for behavior to be considered an addiction designation Discusses the evidence for behaviors meeting addiction criteria Identifies what is now, likely will be, and is not a behavioral addiction per evidence Discusses behaviors formerly considered impulse control disorders Presents evidence-based treatment for each behavioral addiction

Student-scientist-teacher interactions provide students with several advantages. They provide opportunities to interact with experts and professionals in the field, give students a chance at meeting a role model that may impact students' career choices, and increase awareness of available career options combined with an understanding of how their skills and interests affect their career decisions. Additionally, it enhances attitudes and interest toward STEM professions for students and grants opportunities to connect with scientists as human beings and see them as "real people," replacing stereotypical perceptions of scientists. Moreover, there are many advantages for the teacher or informal educator when these partnerships are established. For these reasons and more, numerous studies are often conducted involving the partnerships of students, scientists, and teachers. Enhancing Learning Opportunities Through Student, Scientist, and Teacher Partnerships organizes a collection of research on student-scientist-teacher partnerships and presents the models, benefits, implementation, and learning outcomes of these interactions. This book presents a variety of different scientist-student-teacher partnerships with research data to support different learning outcomes in settings like schools, after-school programs, museums, science centers, zoos, aquariums, children's museums, space centers, nature centers, and more. This book is ideal for in-service and preservice teachers, administrators, teacher educators, practitioners, stakeholders, researchers, academicians, and students interested in research on beneficial student-scientist-teacher partnerships/models in formal and informal settings.

A compelling collection that looks at one of the most famed director-composer collaborations in film history.

This fourth edition of "The Mule Companion" is a comprehensive book on mules with new photos of many real people and mules doing real mule activities. "The Mule Companion" has been called an excellent 'mule primer' for those people just getting into mules. However, the book also hosts an in-depth study of why mules do what they do, their idiosyncrasies, training, and problem solving. Also, the book is rich with 'how to' information on: caring for, breeding for, fitting tack on, buying, and mule activities, past and present.

Written by a global team, this up-to-date introduction to applied linguistics helps students learn what it's like to do applied linguistics, and not just read about theoretical concepts. First, it provides frameworks for understanding both the shared characteristics of work in applied linguistics and the diversity of topics and analyses. Each chapter then highlights a topic area, covering key concepts, a specific project undertaken by the authors, and their personal reflections on entering the field. Hands-on analysis and other application activities also encourage students to test different skills related to each chapter. Finally, students are introduced to the tools they need to continue in applied linguistics: how to read and write empirical research, how to evaluate primary literature, and starting points for expanding their interest in specific subject areas. The authors provide examples from different geographical regions and languages to engage an international audience. At the same time, multilingualism, interdisciplinarity, and technology are integrated as themes within the text to reflect how these areas are now interwoven throughout applied linguistics.

Did you know that 'flavour of the month' originated in a marketing campaign in American ice-cream parlours in the 1940s, when a particular flavour would be specially promoted for a month at a time? And did you know that 'off the cuff' refers to the rather messy practice of writing impromptu notes on one's shirt cuff before speaking in public? These and many more idioms are explained and put into context in this second edition of the Oxford Dictionary of Idioms. This vastly entertaining dictionary takes a fresh look at the idiomatic phrases and sayings that make English such a rich and intriguing language. A major new edition, it contains entries for over 5000 idioms, including 350 new entries and over 500 new quotations. The text has been updated to include many new idioms using the findings of the Oxford English Reading Programme, the biggest language research programme in the world. The entries are supported by a wealth of illustrative quotations from a wide range of sources and periods. For example: 'Rowling has not been asleep at the wheel in the three years since the last Potter novel, and I am pleased to report that she has not confused sheer

length with inspiration.' - Guardian, 2003. 'I made the speech of a lifetime. I had them tearing up the seats and rolling in the aisles.' - P.G. Woodhouse, 1940. Many entries include boxed features which give more detailed background on the idiom in question. For example, did you know that 'taken aback' was adopted from nautical terminology, and described a ship unable to move forward because of a strong headwind pressing its sails back against the mast? The text has been entirely redesigned so that it is both elegant and easy to use. Anyone interested in the quirky side of the English language will have hours of fun browsing through this fascinating and informative volume.

Medical partnerships are highly complex legal and financial entities. This book navigates the reader through the key issues and deals with the less tangible aspects such as partnership dynamics and organisational behaviour. Examples illustrate common difficulties and offer possible choices. It is clear, practical and readable and essential for all GPs entering a partnership. It is also relevant for GPs currently in partnerships, practices considering their partnership deed, Senior House Officers and GP registrars. Traces the half-century ascent of Goldman Sachs from a marginal family firm with limited prospects to one of the world's most profitable investment banks, evaluating the contributions of such pivotal figures as Sidney Weinberg, Gus Levy, and John Whitehead. 75,000 first printing.

Appreciative Leadership: Building Sustainable Partnerships for Health explores how newly trained graduates and experienced leaders can leverage an interdisciplinary approach focused on the strength of their teams to transform healthcare in today's complex environment. T

More and more, therapists are intervening in marital conflicts without waiting to complete the formal assessment process. While most texts begin with theoretical roadmaps for the process of therapy, Dynamic Assessment in Couple Therapy shows therapists how to begin interventions during the process of assessment. By detailing the procedures and techniques for using their innovative Structured Initial Interview (SII), the authors have designed a practical form of intervention to handle both the complexity of the marital journey and the subtle realities of marital roadblocks. As outlined in this innovative book, SII is a creative source of interaction that will stimulate new insights and helpful new directions for therapists and their clients.

Many books on solution-focused brief therapy provide histories, overviews, and uses of the approach. Doing Something Different does not do any of those things. Instead, it provides those interested in the solution-focused approach with a plethora of ideas for practice, training, and simply enjoying the solution-focused approach and its practice in therapy, consulting, coaching, and training. It contains a varied and rich array of interventions, training ideas, uses with different populations and approaches, and resources written by contributors who represent many countries and viewpoints, and who are well known in the training and practice of the solution-focused approach. Chapters are presented in simple language, as befits the solution-focused approach, and complement the many serious and whimsical sections of the book, which include practice and training ideas, favorite quotes and stories, "outrageous" moments in therapy, and a list of solution-focused songs. Anyone who enjoys the approach in any manner should find something that grabs the interest and tickles the senses and sensibilities. Readers will come away informed, thoughtful, and entertained.

First published in 1998, this volume is the first full-length discussion of women's experiences in the solicitors' profession in the UK. It provides an account which is grounded in historical research and a contemporary research study. The authors explore this material to analyze both women's own experiences and the mainstream culture and structure of the profession. Following a treatment of the struggle against the formal exclusionary barriers to women's entry to the profession, this book then seeks to identify the informal obstacles which were subsequently erected to women's participation and career progression, and examine their persistence, in a modified form, into the contemporary era. The analysis draws on perspectives from feminist jurisprudence to the sociology of the professions to shed light on the processes which support women's continued subordination in employment as lawyers.

From the dawn of the atomic age to today, nuclear weapons have been central to the internal dynamics of US alliances in Europe and Asia. But nuclear weapons cooperation in US alliances has varied significantly between allies and over time. Partners in deterrence explores the history of America's nuclear posture worldwide, delving into alliance structures and interaction during and since the end of the Cold War to uncover the underlying dynamics of nuclear weapons cooperation between the US and its allies. Combining in-depth empirical analysis with an accessible theoretical lens, the book reveals that US allies have wielded significant influence in shaping nuclear weapons cooperation with the US in ways that reflect their own, often idiosyncratic, objectives. Alliances are ecosystems of exchange rather than mere tools of external balancing, Frühling and O'Neil argue, and institutional perspectives can offer an unprecedented insight into how structured cooperation can promote policy convergence.

A stimulating collection of studies by leading feminist scholars offering radical readings of the Old Testament books of Samuel and Kings. Although gender ideology may have been only a 'side issue' for the writers of these texts, the articles in this collection show that it is definitely a constituent of the general ideological framework of this section of Israel's historiography, and they explore the texts for women's lives, female voices, gendered types, and the presence of women in the written history. As Athalya Brenner states in her introduction to the volume, in looking at the presentation of women and femaleness in Samuel and Kings we 'encounter chiefly relational images': women are seen as daughters, mothers, queen mothers, and in their relations to kings and prophets.

The process of finding and making the best possible match is not an easy one. On the contrary, from an emotional perspective finding, making, maintaining, and enriching an intimate partnership is one of the most challenging tasks an adult faces. There must be an attraction or a spark for a true match to be made. When a couple comes for counseling, they come with the hope that their relationship can be renewed that they can capture the heat and the emotion that they once had together. The Couples Match Book: Lighting, Rekindling, or Extinguishing the Flame explores relationship theory and research. Including self-assessment activities to help determine what actions to take to improve relationships, this guild offers information that focuses on understanding and respecting personality differences, role perceptions, communication, and problem-solving. The balance of the book shares personal stories written by couples detailing their

own experiences in an effort to help others in improving their intimate relationships. The Couples Match Book: Lighting, Rekindling, or Extinguishing the Flame can be used as a supplemental text in marriage and family courses, as well as a primary resource in couples counseling and marriage and family therapy.

This is the first comprehensive volume of the clinical management of sex addiction. Collecting the work of 28 leaders in this emerging field, the editors provide a long-needed primary text about how to approach treatment with these challenging patients. The book serves as an excellent introduction for professionals new to the field as well as serving as a useful reference tool. The contributors are literally the pioneers of one of the last frontiers of addiction medicine and sex therapy. With a growing awareness of sex addiction as a problem, plus the advent of cybersex compulsion, professional clinicians are being confronted with sexual compulsion with little clinical or academic preparation. This is the first book distilling the experience of the leaders in this emerging field. With a focus on special populations, it also becomes a handy problem-solving tool. Readable, concise, and filled with useful interventions, it is a key text for a problem clinicians must be able to identify. It is destined to be a classic reference.

Conversations with Colum McCann brings together eighteen interviews with a world-renowned fiction writer. Ranging from his 1994 literary debut, *Fishing the Sloe-Black River*, to a new and unpublished interview conducted in 2016, these interviews represent the development as well as the continuation of McCann's interests. The number and length of the later conversations attest to his star-power. Let the Great World Spin earned him the National Book Award and promises to become a major motion picture. His most recent novel, *TransAtlantic*, has awed readers with its dynamic yoking of the 1845-1846 visit of Frederick Douglass to Ireland, the 1919 first nonstop transatlantic flight of Alcock and Brown, and Senator George Mitchell's 1998 efforts to achieve a peace accord in Northern Ireland. An extensive interview by scholar Cecile Maudet is included here, as is an interview by John Cusatis, who wrote *Understanding Colum McCann*, the first extensive critical analysis of McCann's work. An author who actually enjoys talking about his work, McCann (b. 1965) offers insights into his method of writing, what he hopes to achieve, as well as the challenge of writing each novel to go beyond his accomplishments in the novel before. Readers will note how many of his responses include stories in which he himself is the object of the humor and how often his remarks reveal insights into his character as a man who sees the grittiness of the urban landscape but never loses faith in the strength of ordinary people and their capacity to prevail.

RELIGION & BELIEFS. It's Time for a Relationship Checkup! Getting routine physicals and dental checkups is essential to your health. And your car needs a regular oil change. But what about your relationship? Dating and married couples rarely, if ever, do a checkup on their relationship. But the sooner you identify problems and find ways to resolve them, the easier it will be to create a strong future. And the sooner you discover your relationship strengths and build on them, the deeper and more intimate your relationship will be. Each chapter of *The Remarriage Checkup* explores one of the key qualities of happy remarriage relationships. Like a GPS device for your relationship, this book has a CPS (Couple Positioning System) and built-in discussion questions that can help you and your partner discover where you are, where you'd like to be, and how to get there.
