In her first novel since *The Quick and the Dead* (a finalist for the Pulitzer Prize), the legendary writer takes us into an uncertain landscape after an environmental apocalypse, a world in which only the man-made has value, but some still wish to salvage the authentic. "She practices ... camouflage, except that instead of adapting to its environment, Williams's imagination, by remaining true to itself, reveals new colorations in the ecology around her." —A.O. Scott, *The New York Times Book Review*

Khristen is a teenager who, her mother believes, was marked by greatness as a baby when she died for a moment and then came back to life. After Khristen's failing boarding school for gifted teens closes its doors, and she finds that her mother has disappeared, she ranges across the dead landscape and washes up at a "resort" on the shores of a mysterious, putrid lake the elderly residents there call "Big Girl." In a rotting honeycomb of rooms, these old ones plot actions to punish corporations and people they consider culpable in the destruction of the final scraps of nature's beauty. What will Khristen and Jeffrey, the precocious ten-year-old boy she meets there, learn from this "gabby seditious lot, in the worst of health but with kamikaze hearts, an

Rivetingly strange and beautiful, and delivered with Williams’s searing, deadpan wit, Harrow is their intertwined tale of paradise lost and of their reasons—against all reasonableness—to try and recover something of it.

The new edition of Ken Hyland’s text provides an authoritative guide to writing theory, research, and teaching. Since 1994, Nancy Mulvany's *Indexing Books* has been the gold standard for thousands of professional indexers, editors, and authors. This long-awaited second edition, expanded and completely updated, will be equally revered. Like its predecessor, this edition of *Indexing Books* offers comprehensive, reliable treatment of indexing principles and practices relevant to authors and indexers alike. In addition to practical advice, the book presents a big-picture perspective on the nature and purpose of indexes and their role in published works. New to this edition are discussions of "information overload" and the role of the index, open-system versus closed-system indexing, electronic submission and display of indexes, and trends in software development, among other topics. Mulvany is equally comfortable focusing on the nuts and bolts of indexing—how to determine what is indexable, how to decide the depth of an index, and how to work with publisher instructions—and broadly surveying important sources of indexing guidelines such as *The Chicago Manual of Style*, Sun Microsystems, Oxford University Press, NISO TR03, and ISO 999. Authors will appreciate Mulvany's in-depth consideration of the costs and benefits of preparing one's own index

Helpful appendixes include resources for indexers, a worksheet for general index specifications, and a bibliography of sources to consult for further information on a range of topics. *Indexing Books* is both a practical guide and a manifesto about the vital role of the human-crafted index in the Information Age. As the standard indexing reference, it belongs on the shelves of everyone involved in writing and publishing nonfiction books.

Applied linguistics as a discipline embodies a wide canvass of knowledge pertaining to language studies.

One dimension of this knowledge that has whetted the appetite of scholars is student academic writing.

Professor Chandrasoma's book critically explores academic interdisciplinarity, a relatively new area of student writing in our contemporary contexts, from different perspectives: approaches to ESL/EFL/EAP, disciplinary integration, linguistic capital, pedagogical practices in applied linguistics, generically diverse assessment tasks, extra-disciplinarity, pedagogic desire, curricular issues, and socio-economic imperatives. His work also offers a comprehensive study of how student writers grapple with interdisciplinary knowledge in the academy. In Chapter two, the author introduces a typology of interdisciplinarity, and he substantiates his claims with empirical evidence, thus demystifying its abstract and vague definitions abounding in the literature. This is an area where he really breaks fresh grounds. The intellectual intensity of this book emerges largely from the novel concepts introduced in his discussions on interdisciplinary integration in the university curricula in the last two decades. Since almost every discipline has crossed its boundaries, student writing has become a more complex and intricate academic exercise as has never been before. Professor Chandrasoma emphasizes the need for knowledge for

specific purposes programs peripheral to the currently used English for academic/specific purposes programs in universities in order to enculturate novice student writers into the new culture of interdisciplinary integration. This seminal work proposes critical interdisciplinarity as a sustainable pedagogical practice to cope with a plethora of difficulties encountered by student writers at various stages of constructing their texts. The book meets a long felt need as evidenced by the paucity of literature on interdisciplinary studies in particular reference to student writing. Hence this book is an asset to language teachers, academic support advisors, curriculum developers, researchers in linguistics, and student writers. As far as academic disciplines are concerned, the book has a specific focus on English language (ESL/EFL/EAP), applied linguistics, and education. The book will also serve as an invaluable resource for various programs where academic literacies are vital. In particular it lends itself to programs such as foundation studies, developmental education, and interdisciplinary studies both at graduate and postgraduate levels in universities and colleges.

When a dissertation crosses my desk, I usually want to grab it by its metaphorical lapels and give it a good shake. "You know something!" I would say if it could hear me. Since its publication in 2005, *From Dissertation to Book* has helped thousands of young academic authors get their books beyond the thesis committee and into the hands of interested publishers and general readers. Now revised and updated to reflect the evolution of scholarly publishing, this edition includes a new chapter arguing that the future of academic writing is in the hands of young scholars who must create work that meets

the broader expectations of readers rather than the narrow requirements of academic committees. At the heart of *From Dissertation to Book* is the idea that revising the dissertation is fundamentally a process of shifting its focus from the concerns of a narrow audience—a committee or advisors—to those of a broader scholarly audience that wants writing to be both informative and engaging. William Germano offers clear guidance on how to do this, with advice on such topics as rethinking the table of contents, taming runaway footnotes, shaping chapter length, and confronting the limitations of jargon, alongside helpful timetables for light or heavy revision. Germano draws on his years of experience in both academia and publishing to show writers how to turn a dissertation into a book that an audience will actually enjoy, whether reading on a page or a screen. Germano also acknowledges that not all dissertations can or even should become books and explores other, often overlooked, options, such as turning them into journal articles or chapters in an edited work. With clear directions, engaging examples, and an eye for the idiosyncrasies of academic writing, *From Dissertation to Book* reveals to recent PhDs the secrets of careful and thoughtful revision—a skill that will be truly invaluable as they add “author” to their curriculum vitae.

However, this book was not written simply to help you pass another English class or to get you through the next writing intensive course (although it will certainly do that). At some point you will be out in the real world (hopefully).
