For the longest time, parents and children both, knew and believed that Medicine, Engineering, Management and Law were the only true 'careers' which could provide job security and steady paycheques. However, youngsters today couldn't have been more open to trying out offbeat careers. They are bold, patient, resilient and aware of the fact that a career that is in line with their interests has a higher chance of being satisfying. An equal, or probably more, parents are sceptical about these unconventional careers and would rather have their children go in for 'tried and tested' jobs. With 'Steps to Career', the author has attempted to dilute the dilemma of such children and their parents, providing them a wealth of information on the available conventional and unconventional career options, to help the children decide the right career for them, and the process.

In a world of rat race, amidst an ocean of career options and opportunities, students often face a dilemma in making the right choice for their careers. While some of them find themselves at a juncture of social pressure, a few others become a victim of lack of knowledge regarding various courses and often end up pursuing a course that may not be what they are really looking for. Hence it is vital for students to know the details of a course with clarity before finalizing on their options. This book is curated by three young Architects from U-WE-DESIGN, an architectural design firm with an intention to present clarity in the minds of students about the Bachelor of Architecture course and varied doors of opportunities that it can lead to, with a hope that their simplified expressions about the course will breakdown the uncertainties that are often faced by every young mind who is out in search of information related to the course. The book is not only for students but anybody, including guardians/parents who would like to ensure the details of the course and the architectural arena. If you are somebody looking forward to knowing about studying architecture or currently pursuing BArch, this book is an all-in-one package for your queries. Through the narrative pages of the book, team U-WE-DESIGN asserts to build confidence in you in making your choice with clarity and certainty. To every aspiring mind with big dreams, happy reading and all the best!

Key Features:A large number of preparatory problems with solutions to sharpen problem-solving aptitude in physics. Ideal for developing an intuitive approach to physics. Inclusion of a number of problems from the suggestions of the jury of recent Moscow Olympiads.
About the Book:The book helps the students in sharpening the problem-solving aptitude in physics. It also guides the students on the ways of approaching a problem and getting its solution. The book also raises the level of learning of physics by practicing problem-solving. It will be especially useful to those who have studied general physics and want to improve their knowledge or try their strength at non-standard problems or to develop an intuitive approach to physics. A feature of the book is that the most difficult problems are marked by asterisks. This book will prove beneficial for the students of the senior secondary, undergraduate courses. It
